

The Pampered Pooch Motel and PUPi

The Pampered Pooch Motel is owned and operated by Marie and Lowther who opened the establishment in 1998 to offer a unique concept in a boarding kennel. The Pampered Pooch is located at 660 Warton Road, Banjup, Perth.

Boarding

At the Pampered Pooch your dog can roam free during the day in a large grassed enclosed area with other sociable dogs. During its stay it will be well exercised, cared for and meet plenty of new friends. Small and large dogs are segregated with separate play and sleeping areas. All dogs for boarding and day care must have current vaccinations, be neutered and sociable with other dogs.

Daycare

Another popular service offered by the Pampered Pooch is Doggie Daycare. Regular daycare will alleviate the need to seek out other dogs to keep your dog well socialised. Drop your dog off early am and collect it later in the day. Whilst you are at work or out for the day, your dog can join the other dogs and play with them. A "happier" day for your pet than if it was at home on its own.

Dog Training (PUPi)

The Pampered Pooch offers private and group training through PUPi on our large, grassed, fenced training area. PUPi provides a four week training course (for vaccinated pups under 12 months of age, or older, smaller breeds of dogs) at the Pampered Pooch two nights a week and at the weekend. PUPi's experienced instructors can assist with all your training needs

PUPi classes are carried out in enclosed areas to enable dogs to socialise and play with each other.

Individual lessons and advanced training are also available. For further information contact PUPi on 1300 887 158 or at www.pupi.com.au

For animal behaviour problems call AMREX Behaviour (Dr Garth Jennens) on 9354-7971

Hire of the training grounds

The Pampered Pooch has a fully fenced training area with lights available for hire to clients of the Pampered Pooch or PUPi. The venue is suitable to practice off lead training, or for a few friends to get together so that their dogs can meet and play off lead in a safe area. The venue is not available for hire to training organizations. Terms and conditions apply

Socialisation and Fun Days

The training area is ideal for a regular get together for your dog and a few of its friends, without the problems associated with public dog exercise areas. The size of area enables many of the games that your dog enjoys in the park, such as "fetch" and "chase" to be played. A "games" and "competition" afternoon can be arranged through PUPi.

Off Lead Training

For owners who have problems with off lead control, the enclosed area is ideal to practice the training techniques necessary to master this advanced type of training. The venue provides a safe area that the dog cannot escape from, and which is free from other dogs.

Parties and Special Occasions

Dogs love "to party". For that special day, your dog's birthday PUPi can organise a party for your pet, with a few of its friends, some games and doggie nibbles hosted by a "PUPi" instructor. Alternatively organise a party yourself. The venue can be also be hired for weddings, anniversary's and other special events that are important to you and your dog.

To arrange a booking call (1300 187 158) or email us at (pupi_1@optusnet.com.au)

Grooming

The Pampered Pooch offers a full dog grooming service to make your dog's stay a little more pampered. Each groom is tailored to your dog's skin and coat's needs, and includes washing, clipping, scissor trimming, brushing, trimming of nails and ear cleaning. Grooming can be a more relaxing and enjoyable experience, when carried out in a familiar environment with people the dog knows and trusts.
